

Description

Alternative volumetric pump with 3 pistons for use on washing groups and industrial plants.

Possibility of direct connection or coupling with elastic joint to different engine types.

Cast iron body and covers.

Rear cover with drain and oil level.

Piston movement made by the connecting rod system - crank.

Molded high pressure steel pump shaft.

Over-sized bench bearings.

Bushes in special zinc alloy - die cast aluminum with antifriction properties.

Possibility of bronze rods.

Integral ceramic pistons.

Nickel-plated brass piston head.

Double seal sealing system. Valve caps both in suction and in delivery for better maintenance.

Technical Data

Category	Contractor 600
Series	282 - RTF
Pump	RTF 135.100
Version	N
ARCode	22217
Flow rate (lt / min)	135
Range (gpm)	35.7
Pressure (bar)	100
Pressure (psi)	1450
Power (hp)	35
