

Description

Alternative volumetric pump with 3 pistons for use on washing groups and industrial plants.
 Die-cast aluminum alloy pump body and lids.
 Rear cover with oil drain and oil level.
 Piston movement made using the crankshaft system.
 Molded high pressure steel pump shaft.
 Over-sized bench bearings.
 Bushes in special zinc alloy - die cast aluminum with antifriction properties.
 Possibility of bronze rods.
 Integral ceramic pistons.
 Printed brass piston head.
 Dual seal sealing system.
 Possibility of different types of sealing systems according to the application.
 Valve caps both in suction and in delivery for better maintenance.
 Possibility to connect the pump head to different adjustment valves and accessories.

Technical Data

Category	Hydraulic Drive
Series	228 - RK
Pump	HYD-RK 15.20
Version	HYD
ARCode	21605
Flow rate (lt / min)	15
Range (gpm)	3.96
Pressure (bar)	200
Pressure (psi)	2900
Power (hp)	7.5
