

## Lay hose safely in no time flat.

The Reel Deployer™ lay-flat hose retrieval and deployment system is a patented, proven system designed to safely and efficiently deploy, store, transport, and recover lay-flat hose. This system is designed to support rubber, rubber/PVC, and thermal polyurethane (TPU) hose, with diameters up to 12" and lengths up to 660'.

The Reel Deployer provides companies with the ability to safely deploy and recover more lay-flat hose in a shorter period of time, using fewer people and less equipment.

### Safe

The Reel Deployer is designed on a drive system platform that uses a unique single-reel quick attach/detach mechanism, for easy, efficient, and safe operation.

The Reel Deployer allows for the driver to control all movement remotely, requiring fewer personnel and reducing the likelihood of mishaps.

### Efficient

The Reel Deployer can safely deploy and recover over one mile of hose per hour.

It also helps you to keep your job site organized by storing your hose in a secure, space-saving manner and allowing empty reels to be left along the path of the hose for convenient pick up.

### Cost Effective

With proper management, lay-flat hose can last up to 5 times longer.

The reduced number of personnel required for operation of The Reel Deployer decreases your labor costs and insurance costs.

### Versatile

The Reel Deployer can make deployment and recovery of lay-flat hose more efficient and safe in a wide variety of industries:

- Oil and Gas
- Mining and Agriculture
- And More
- Fire and Disaster
- Defense

### Quality Service

We believe we are a service company first and foremost and will jump through hoops to make sure your team is always up and running. We are also the only company in the industry that maintains significant inventory of reels to fulfill large orders immediately.

## Specifications

### Deployer

Weight: 750 lbs.

Dimensions: 55" W x 62" D x 65" L

### Single Reel

Weight: 800 lbs.

Dimensions: 8 ft. diameter

### Optional Reel Handler

Weight: 500 lbs.

Dimensions: 55" W x 46" D x 65" L
